

# printQr jQuery Plugin

## Description

This plugin adds [QR codes \[1\]](#) for any specified link to the bottom of the page.

As QR codes are especially usefull when printing a page, they are hidden by default and shown when printing the page.

## Usage

First of all you will need [jQuery \[2\]](#). You may utilize the Google CDN:

```
<script src="https://ajax.googleapis.com/ajax/libs/jquery/1.5.1  
/jquery.min.js" type="text/javascript" charset="utf-8"></script>
```

[Download \[3\]](#) and integrate the plugin. A [minimized Version \[4\]](#) is available, too.

On your page you have to add the following javascript:

```
$(document).ready(function() {  
    $('a').printQr();  
})
```

## Examples

This page makes use of `jQuery.printQr`. [Show print stylesheet](#) to see the QR-Codes on the page or [print the page](#).

You may have a look at a [generated PDF \[5\]](#).

## Licence and Copyright

Dual licensed under the [MIT \[6\]](#) and [GPL \[7\]](#) licenses.

Copyright [Stefan Motz \[8\]](#) 2011.

This plugin makes use of the [Google Charts API \[9\]](#).
